Di Blasi R30

A revelation in lightweight and compact mobility scooter design

The Di Blasi R30 is manufactured on the beautiful Italian island of Sicily. The vibrancy of this part of the world is captured within the sleek design, making the Di Blasi R30 different from many other mobility scooters on the market.

The Di Blasi R30 was the **UK's first fully automatic folding mobility scooter**. To save you the time and effort of pulling levers or unfastening clips, simply press a button on the side and watch the scooter unfold in seconds.

When you've finished your journey, press the button again and the Di Blasi R30 will fold down to the size of a suitcase. Once folded, it's easy to store away in a small space or car boot.

That's the beautiful thing about the Di Blasi R30, it's instantly ready as a fully working mobility scooter.

Compact, effortless, folds in seconds

The Di Blasi R30 gives you the flexibility other scooters cannot offer. The unique folding mechanism and compact design makes this the ideal companion for every day use or to take on your travels.

Once folded, pull out the handle and you're away!

Available in three colours

DIBLASIG Graphite	(£2,600.00) £3,120.00
DIBLASIR Red	(£2,600.00) £3,120.00

Approved for Flight Transportation

SupaScoota MicroLite **SupaScoota SupaLite**

New to the SupaScoota Range is the MicroLite the *lightest mobility scooter in the world*. With the frame weighing only 11.8kgs (26lbs), you can simply lift in and out of the car just like a bag of shopping...it's that light!

The SupaLite frame weighs in at 13.6kg (29.9lbs), slightly heavier than the MicroLite. Its 260W motor will give you more power than the MicroLite to tackle different terrain and the longer chassis provides extra comfort.

Comes with folding seat

- Eye catching metallic paint finish
- Dynamic braking & Electromagnetic brake
- Panasonic Lithium battery
- Made from aircraft grade aluminum
- Turning radius of 82cm, 32.3"
- Motor output 230W
- Slope grade ability Max. recommended 8 degrees

SSML (Panasonic Lithium Battery) (£1,995.00) **£2,394.00**

SupaScoota **Supalite 4** **SupaScoota Sprint**

Welcome to the lightest 4-wheeled mobility scooter in the world, it has an attractive eye-catching finish and you will also notice that the front wheels are close together, giving you the stability of 4-wheels with the manoeuvrability of 3.

The SupaScoota Sprint is ideal for most occasions. It is one of the lightest models which can handle rougher terrain and is equipped with a suspension seat for extra comfort. The twin motor can provide that extra power when required, making it perfect for long days out.

Comes with folding seat

- Motor output 260W
- Turning radius of 93cm
- Electronic stability control
- Lithium and SLA battery compatible
- Forward and reverse drive
- Automatic electromagnetic safety brakes
- Slope grade ability, 8 degrees max. recommended

SSSL4 (SLA Battery) (£2,395.00) **£2,874.00**

*Range is dependent on user weight, terrain/surface

Comes with folding seat

- 2 x 150w motors
- Turning radius of 94cm
- Electronic stability control
- Lithium and SLA battery compatible
- Long distance travel with optional spare battery pack
- Ideal for both inexperienced users and people with low core body strength
- Automatic electromagnetic safety brakes
- Slope grade ability, 8 degrees max. recommended

SSSHD02 (SLA Battery) (£1,695.00) **£2,034.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
72.7lbs	98cm	58cm	94cm	4mph	8mi*
33kg	38.5"	22.8"	37"	6.4kph	12.8km*

*Range is dependent on user weight, terrain/surface

SupaScoota Sport

The SupaScoota Sport challenges the traditional concept of scooter design. The dual motor drive can easily handle off-pavement use and navigate steeper inclines - making long distance travel enjoyable once more.

Comes with folding seat

- 2 x 150w motors
- Turning radius of 93cm
- Electronic stability control
- Lithium and SLA battery compatible
- Long distance travel with optional spare battery pack
- Forward and reverse drive
- Automatic electromagnetic safety brakes
- Slope grade ability, 8 degrees max. recommended
- Lightweight removable battery for easy charging

SSSPHD (SLA Battery) (£1,995.00) **£2,394.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
82.9lbs 37.6kg	102cm 40"	60cm 23.6"	94cm 37"	4mph 6.4kph	8mi.* 12.8km*

*Range is dependent on user weight, terrain/surface

SupaScoota Sport XL

The SupaScoota Sport XL has all the features of the SupaScoota Sport, but has a longer wheelbase for more leg room, a larger weight capacity (up to 21 stone) and twin 180w motors giving you that extra power.

Comes with folding seat

- 2 x 180w motors
- Turning radius of 98cm
- Electronic stability control
- Lithium and SLA battery compatible
- Long distance travel with optional spare battery pack
- Forward and reverse drive
- Automatic electromagnetic safety brakes
- Slope grade ability, 8 degrees max. recommended
- Lightweight removable battery for easy charging

SSSPXL (SLA Battery) (£2,195.00) **£2,634.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
82.9lbs 37.6kg	105cm 41.3"	60cm 23.6"	94cm 37"	4mph 6.4kph	8mi.* 12.8km*

*Range is dependent on user weight, terrain/surface

SupaScoota Spartan

The SupaScoota Spartan offers a level of comfort that is equal to many road class scooters. It is ideal for the larger person, as it has a load capacity of 32 stone but keeps the amazing manoeuvrability and portability of the SupaScoota range.

Comes with folding seat

- 2 x 180w motors
- Turning radius of 98cm
- Electronic stability control
- Long distance travel with optional spare battery pack
- Forward and reverse drive
- Automatic electromagnetic safety brakes
- Slope grade ability, 6 degrees max. recommended
- Lithium and SLA battery compatible

SSSPTN (SLA Battery) (£2,350.00) **£2,820.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
90lbs 40.4kg	103cm 40.5"	65cm 25.5"	94cm 37"	4mph 6.4kph	7mi.* 11.2km*

*Range is dependent on user weight, terrain/surface

V8

The V8 Foldable Mobility Scooter is the perfect choice for individuals who wish to continue leading an independent and active lifestyle. Featuring a unique two-step fold/unfold system for convenient transport the V8 also has fantastic manoeuvrability and comfort.

Comes with folding seat

- 200w brushless DC motor
- Front wheel drive
- Scooter weight with battery 35.3lbs
- Long travel distance with 2 onboard batteries
- Forward and reverse drive
- Intelligent regenerative electromagnetic brakes
- Slope grade ability, 8 degrees max. recomd.
- 2 x 18v Li-ion battery pack

V8BLUE (£2,195.00) **£2,634.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
21.4lbs 18.8kg	103cm 40.5"	52.1cm 20.5"	81cm 31.9"	3.7mph 6kph	15mi.* 24.1km*

*Range is dependent on user weight, terrain/surface

i3 Folding Scooter

This is the exciting NEW lightweight mobility scooter called the i3. It's an excellent choice for people who wish to continue living an active lifestyle.

Made from lightweight, yet robust aluminium, this compact scooter is perfect for use on public transport including car, bus, aeroplane, train, and cruise ship.

A single lithium battery will provide a travel distance of up to 6 miles*, with the option of a second battery, which can be used to double the distance. You can change between batteries with a flick of a switch.

It only takes a matter of seconds to fold the i3 ready for storage and is probably the only folding scooter that gives you the option to purchase a wider seat.

i3Blue (Lithium Battery) (£2,195.00) **£2,634.00**
i3Plum (Lithium Battery) (£2,195.00) **£2,634.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
53lbs 24kg	95cm 36.7"	46cm 18.1"	71cm 28"	4mph 6.4kph	12mi.* 19km*

...and to make things even easier

i3 Power Lifter

Do you need a little extra help when lifting the i3?

Well, the i3 Power Lifter will solve that problem. It's compact and manoeuvrable, making it super convenient when getting your scooter in and out of the car boot.

In seconds, you'll be able to raise this lifter to the correct height and wheel your scooter into the car boot. Yes, all this using power from the scooter battery with no lifting required.

Maximum lifting height 72cm (28")
 Only 14.5cm (5.7") high when in closed position.

i3LIFT (£695.00) **£834.00**

Lifter Weight	Overall Length	Overall Width	Folded Height	Max Height	Max Load
25lbs 11.5kg	60cm 23.6"	50cm 19.7"	14.5cm 5.7"	72cm 28.3"	60lbs 27kg

*Range is dependent on user weight, terrain/surface

Compact and Stable

Kymco K-Lite

The Kymco K-Lite is up there with the lightest mobility scooters on the market today. It has been designed to maximise transportability, manoeuvrability, and performance. The heaviest component weighs only 14 kg and can be easily dismantled in to 5 separate components.

Up to
19
stone

- Wireless battery box
- Can be dismantled using one hand only
- Turning radius 121cm
- Max. slope 8 degrees
- Backlit battery meter for improved visibility
- Soft, large rubber grip tiller handlebar adjustment knob
- Access on and off swivel seat
- Colours: Mink and Black

EQ10DA - Black or Mink (€995.00) **£1,194.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to

93kg	50"	24"	39"	12.8kph	32km*

*Range is dependent on user weight, terrain/surface

Riviera 500

The Riviera 500 is a fantastic road class scooter with an adjustable Captain's seat providing comfort and the option to side transfer with ease. The ride experience is further enhanced by a high-quality suspension system on the front and rear. A simple control panel allows you to activate the lights, change speed, and view battery life.

Up to
25
stone

- 2 USB ports
- 600w 4-pole motor
- Turning radius 147cm
- Max. slope 10 degrees
- Auto braking system
- Adjustable backrest with seat belt
- Manual emergency brake
- Colours: Red & Yellow

RIV500R (Red) (€2,295.00) **£2,754.00**

RIV500Y (Yellow) (€2,295.00) **£2,754.00**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to
227lbs	128cm	64cm	119cm	6mph	21mi.*
103kg	50"	25"	46.8"	9.6kph	35km*

*Range is dependent on user weight, terrain/surface

Riviera 700

The Riviera 700 is a larger, more powerful version of the Riviera 500. It has a 700w 4-pole motor, a travel distance of up to 27 miles, has a fully adjustable captain's seat, and front and rear suspension. The adjustable tiller allows you to find the optimum driving position. The Riviera 700 provides you with more performance, more comfort, and more power.

Up to
29
stone

- 2 USB ports
- 700w 4-pole motor
- Turning radius 160 cm
- Max. slope 10 degrees
- Auto braking system
- Adjustable backrest with seat belt
- Manual emergency brake
- Colours: Grey & Red

RIV700G (Grey) (€2,495.00) **£2,994.00**

*Range is dependent on user weight, terrain/surface

Kymco Agility

The Kymco Agility will provide you with the very best in performance, comfort, and manoeuvrability. It has sporty low-profile tyres and 12" alloy wheels which helps to give a stylish feel. A smooth ride quality is helped by the oil dampened suspension system, and the luxury Captain's seat provides excellent comfort. There's even a 12-volt socket where you can charge your devices on the go.

Up to
26
stone

- Luxury breathable adjustable Captain Seat for extra comfort
- Max. slope 12 degrees
- Waterproof backlit LCD display
- Good ground clearance
- Low energy consumption lights
- 156cm turning radius
- Oil dampened all round suspension
- Easy access on board storage facility for convenience and safe storage

KAGILITY (£2,899.00) **£3,478.80**

Scooter Weight	Overall Length	Overall Width	Overall Height	Max Speed	Range up to

SafeStor Metal Mobility Scooter Storage

The Mobility Scooter Stor will keep your mobility scooter or powerchair protected from the weather, vandalism, and theft. It has a **3-point locking system** with anti-pick and drill properties. All the bolts are located inside the shed which should deter thieves from attempting to steal your equipment.

The Safe Stor weighs 16 stone and has an **integrated metal floor**, making it extremely sturdy. It is manufactured from high quality galvanised steel to prevent rust and withstand the elements.

An extra wide door allows easy access, and an anti-slip aluminium ramp is provided to ensure you and your scooter can get in and out without having to navigate any ridges.

There is an attachment (supplied as standard) which will enable you to run electricity to the unit. That way, you can charge the scooter without having it in your house or flat.

- A. Roof Height 1437mm (4' 7")
- B. Width 1012mm (3' 3")
- C. Depth 2062mm 6' 7"
- D. Door Width 943mm 3' 1"
- E. Door Height 1195mm 3' 9"

The **SafeStor Ventilation System** will prevent a build-up of condensation and damp, preventing any damage to your scooter. It's **maintenance free**, manageable for everyone, and can be kept at the highest of standards.

SupaChair Safari

The SupaChair Safari has a lightweight and compact design which can be assembled or disassembled in a matter of seconds. We love this powerchair, as it's perfect to use within your home or when you want to do a little shopping.

It is equipped with anti-tip wheels and suspension for added comfort. The responsive controls and extremely tight turning circle allow you to navigate small spaces and crowded places with ease.

Up to 23 stone

Great all rounder

- Powered by either SLA or Lithium battery
- Complete unit will fit into most car boots
- Turning radius of 700mm
- Breaks down into 2 parts

Eazi Chair Ultra

The eazi chair ultra provides the comfort and reliability of a powerchair and electric wheelchair in one simple package. With the chair weighing an amazing 25kg, it may well be the lightest powerchair in the world for its size!

A total travel distance of up to 14 miles is made possible by the 2 x lithium batteries which slide discreetly and easily into the support bars on the side of the frame. To collapse the **eazi chair ultra** simply unclip the latch behind the seat, and it will fold in under 10 seconds to a compact 95 cm height x 36 cm depth x 60 cm width.

It's now ready for your car boot or to be stored upright in a tight storage space.

The two powerful 250w motors and large rear wheels will certainly help when driving across rough and uneven terrain. Additionally, brushless motors are attached to the rear, which, with fewer moving parts require less maintenance and increase efficiency.

Perfect to use in your home, around your local area, or for longer and more challenging days out. If you're looking for a robust and portable powerchair on your next adventure, then the **eazi chair ultra** is the ideal companion.

Please note:

The eazi chair ultra is supplied with one battery. An additional battery can be purchased to achieve a distance of 14 miles.

Up to **28** stone

Unclip the latch at the back of the chair and fold with ease in one simple motion

SupaChair Combi

At last a truly portable powered wheelchair

The Combi is a new and highly versatile lightweight powered wheelchair, featuring an easily switchable joystick which gives the user independence but also allows a carer to take control when required.

The attendant can manoeuvre the chair effortlessly, alleviating any potential strains or injuries to themselves.

Independence can be given back to the user by simply moving the control unit to the armrest.

Quick release axels help to quickly fold the wheelchair for storage, making it ideal for use around the home or longer journeys. The two powerful motors help to navigate slopes and uneven surfaces with ease.

We find that even the most experienced users are impressed with the performance and all-round capabilities. There is also a large wheel sport version for more challenging terrain.

- Lightweight lithium battery - can be charged separately
- Adjustable slung backrest and 3 back angle settings
- Comfortable supportive seat
- Unique footplate and also swing away footrests supplied
- Adjustable armrest height
- 18" or 20" seat width options
- Free-wheel mode for use as a standard wheelchair
- Flip-up armrests for side transfer

Up to **23** stone

Rear sport wheels are available

Dismantles with ease and can be folded for transportation or storage

The heaviest component which can be easily removed is the Drive Unit weighing 15kg (33lbs)

A range of hoists that make easy work of loading and unloading **wheelchairs, mobility scooters and powerchairs** from your vehicle

- Easy to use
- Lifts all types of scooters and powerchairs
- Manufactured in the UK
- Over 300 vehicle specific installation kits
- Lifts up to 200kg
- Transfer easily to your next vehicle

Lift & load in just 60 seconds!

Smart Lifter: LM Range

40kg & 80kg Boot Hoist

If you're looking for a hoist for your wheelchair or mini scooter, the Smart Lifter LM range would be perfect for you.

With a max lifting weight of either 40kg or 80kg, this lifter is perfect for smaller, lighter mobility vehicles and can help you get out and about quickly and easily.

It has a fully automated lifting function, operated with the touch of a button. This lifter will eliminate the need to manually load your mobility equipment in the car.

Smart Lifter: LC Range

80kg & 100kg Boot Hoist

The Smart Lifter LC range is the medium size out of our three hoists, lifting up to 100kg of weight, with both 80kg and 100kg hoist options.

Due to that weight limit, this hoist is best suited to mini scooters or wheelchairs.

This hoist is simple and easy to operate, lifting and loading your wheelchair or mini scooter in 60 seconds, and can easily be transferred to a new vehicle if you change car.

Smart Lifter: LP Range

125kg, 150kg & 200kg Boot Hoist

Capable of lifting all types of scooters or powerchairs, the Smart Lifter LP range is perfect for users who possess bigger or heavier devices.

With a range of three lifting capacities, 125kgs, 150kgs and 200kgs this is the world's highest capacity vehicle hoist.

This lifter operates completely automatically at the touch of a button and will load your scooter or powerchair in 60 seconds, giving you a simple and easy way to get your vehicle into your car.

Independence at the touch of a button

EasyLift
Introducing the new 40-kg boot hoist

This hoist is reliable and compact; it can be used to lift small motorised scooters and manual wheelchairs of up to 40 kilograms.

The hoist can be neatly installed to either the nearside or offside rear corner of the boot area. It's suitable for most type of vehicles, including hatchbacks, estates and saloon cars. The boom and upright arm have a unique folding design. This enables you to fold the post neatly when not in use.

To control the hoist's "Up and Down" movement, you can either use the built-in control located on the main body of the hoist, or use the attached two-way handset, which is designed for easier usage.

An interlock system ensures that the lifting arm is locked in the up position before the hoist can be operated.

Particular attention to the design allows every user to operate the hoist alone without any difficulty.

The design also enables the user to transfer the hoist between vehicles.

Arm folds neatly when not in use

C. Auto Mobility Solution Combination Pack

Auto Mobility Solution is a combination pack that contains 1 x Handybar (PR40013) and 1 x Soft Transfer Seat (PR41021).

These two products are an ideal combination for assisting in getting in and out of a car seat. Max user weight for the handybar is 25 stone and for the Soft Transfer Seat is 18 stone.

Swivel Cushion

A soft, padded, flexible turning disc ideal for use on car seats, chairs and beds. The soft cushioned seat allows a smooth swivel transfer without painful twisting and the anti-slip underside material adds safety.

Handybar

This clever device allows the user to get in and out of their vehicle easily and comfortably. The Handy Bar, with its soft grip, non-slip handle for extra comfort and super strong forged steel shaft, creates a safe, solid support handle where it is needed. The Handy Bar also incorporates a Seat Belt Cutter and Glass Breaker.

Height: 48cm (18.8inches)

1525771 (£119.50) £143.94

C. Height Adjustable Stacking Commode Chair

The stackable Norfolk Commode Chair is ideal as a bathroom commode or bed room commode chair. It is height adjustable and has the added benefit of an adjustable sliding pan rack, enabling the chair to accommodate 5, 10 and 20 litre commode pails. The seat and back are vinyl welded for hygiene and safety.

VR235 (£49.50) £59.40

D. Folding Commode

This compact commode folds easily for storage and transportation. The armrests fold backwards, making it easier to get on and off the commode. The back rest and seat are upholstered and is flame retardant.

3515 (£85.00) £102.00

Best Seller

A. Royal Commode

The Royale range of high-quality natural ash chairs is designed to blend in to any home setting.

The comfortable seat is hinged and when pushed back reveals the hidden commode with an Ellis lock & lift system. The hinge makes it easy to slide the seat cushion out ready for use. Sturdy armrests provide extra support to the user when standing up.

This solid wood chair is crafted from sustainably sourced timber using traditional mortise and tenon joints with strong metal-to-metal fixings. It is discreet, people will not know it is a commode chair.

Upholstered in fire-resistant easy to clean fabric, the seat cassette and commode pan are easy to remove.

A. Orca Bath Lift

The Aquatec OrcaNG bath lifter has been designed to provide confidence whilst getting in and out of the bath. The sturdy seating platform allows you to simply sit down and lower your self to enjoy a pleasant and relaxing bath. Once bathing is complete, the OrcaNG comfortably lifts you to the edge of the bath for a safe transfer to your feet. The OrcaNG has an impressive weight limit of 140kg (22 st.) as standard, while the OrcaNG XL will support individuals up to 170kg (26.5 stone).

1573866 Orca	(£375.00)	£450.00
1573686 Orca XL	(£450.00)	£540.00

Orca Bath Lift Covers

147056 White	(£22.00)	£26.40

Cover colour options blue or white. Please note, the XL model only comes in white

Compact hand control with integral battery

Orca^{NG} bath lifts incorporate a revolutionary lightweight battery contained within the ergonomic hand control. Raised profile, coloured buttons and an emergency stop feature allow simple, controlled operation even to those with dexterity issues.

140kg
22st

Orca

- Quick release, floating hand control with integrated rechargeable battery.
- Self-release suction cups to allow quick removal from bath.
- Backrest recline up to 40° for comfortable bathing.

170kg
26st

Orca XL

A more powerful bath lifter with maximum weight of 170 kg (26 stone).

The reinforced scissor mechanism combines safe lifting with a compact construction. Minimum seat height of just 60 mm allows plenty of room for a deeper and more comfortable bath.

The Bathing Cushion

When getting in and out of the bath becomes a problem, try the Bathing Cushion and you'll soon rediscover all the pleasures of a soothing warm bath. It gently lowers you down and raises you back up again at the touch of a button and is one of the most easy to use bath lifts on the market.

With the Bathing Cushion you benefit from all this and more

- You can fit and remove your Bathing Cushion in seconds!
- Get in and out of your bath with total confidence
- Lie down so your entire body is covered with water
- It's lightweight, stable and easily portable so you can take it with you wherever you go!
- You stay in control with the fully waterproof hand control
- The clever design adapts to the size and shape of your bath so there are no expensive bathroom alterations
- Being battery operated there are no dangerous power cables like other products on the market
- You stay safe as you will only be lowered into the bath if there is enough battery power to raise you back up again

MPCA030520 (£697.00) £836.40

Fully portable, versatile and fuss free

Whether in your own home, away from home, or staying with friends or family, we'll show you just how user-friendly and versatile the Bathing Cushion is!

The Stiltz Homelift makes life easier if stairs become too much.

Bamboo has natural antibacterial qualities making these furniture raisers even better than before.

55913	9cm-Carton of 4	(£35.00) £42.00
55914	14cm-Carton of 4	(£49.00) £58.80

C. Adjustable Linked Chair Raiser

The linked design gives the highest level of stability, supplied fully assembled in an easy to fit pack. Height adjusting insert blocks are included to change the raise height from 2-4 inches (5-10 cm) depending on the user's needs.

	Max chair footprint: 31" x 27"
LP/JLP125PI	(£35.00) £42.00

D. Leg-X

Leg-X furniture raisers fit tightly to chair legs and could be suitable even if the legs have a curve or are splayed.

Flexible plastic fins inside grip each leg and drop-in blocks can be added to raise the chair to the desired height, from 3-5 inches (7.6-12.7 cm).

6016	(£39.95) £47.94
-------------	-----------------

E. Adjustable Footstool

Foam padded cushion provides maximum comfort and is height and angle adjustable. Plastic clips are secured onto the bottom of the frame to prevent slipping.

F5001	Frame 15.5"x19.5"	£52.00
--------------	-------------------	--------

Choosing the right size for you

A. Back Height

The back height is measured from the seat to the top of the back cushion. It is important that the head is supported in a relaxed position so the top of the cushion is as tall as the person sitting in the chair.

B. Seat Height

Measure from the floor to the top of the uncompressed seat cushion at the front of the chair. When sitting in the chair the top of the leg should be horizontal with your feet solidly on the floor.

C. Seat Depth

The seat is measured from the front of the chair to the uncompressed lumbar back cushion. There should be good resistance between your back and the back cushion. Also the back of your calves should not be touching the front of the seat cushion and leg rest area.

D. Seat Width

The chair seat width should be at least one inch either side of your widest point, usually near the pelvis. Do not specify a chair with large gaps either side of you as this will create a tendency to lean to one side, creating extra stress on your spine.

Choose from three rise and recline mechanisms including a single motor tilt in space and standard dual motor. There is a large pocket on the side which is a handy place to clip the handset.

Full-length arm caps will improve the chairs longevity and durable castors will make it easy to

manoeuvre. The Wessex comes in three different styles: Waterfall Back, Button Back, and Split Lumbar Back.

As standard, The Wessex comes with a luxury pocket sprung cushion. Designed with high tensile steel coil springs in individual pockets which will give you consistent support during its lifespan.

The Wessex also comes with many different fabric options. A sofa, static chair and footstool are also available in the range.

Hampshire

The Hampshire range offers quality workmanship with luxurious fibre filled cushions for your comfort

The Hampshire Rise & Recline chair has comfortable scroll arms and a full chaise footrest. This is beautifully complemented by the 3-pillow waterfall back giving you excellent lumbar and head support.

Each cushion is fibre filled and can be adjusted vertically so you can find a position which suits your needs.

Choose from a single, dual, or dual tilt-in-space action, each providing a smooth, effortless rise and recline movement which is operated by an easy to use handset.

The Hampshire can be tailored to everyone's specification in terms of seat width, height, depth, and armrest height. This helps to ensure comfort and support when seated. To complement the Hampshire, you can buy a matching static armchair and two-seater settee so that everyone can enjoy the comfort.

Practicality and versatility combined with modern styling make the Devon one of the most popular chairs on the market

The Devon is a contemporary chair that is easy to control using the simple handset and provides comfort and flexible support.

The large supportive wings keep the 3 bolster cushions in place. Each cushion is removable (with its own zipped back) which enables each user to create their optimum seating position.

Choose from a single, dual, or dual tilt-in-space action, each providing a smooth, effortless rise and recline movement which is operated by an easy to use handset.

On the side, there are 2 large pockets that can be used to store the handset as well as reading material or TV remote control. For safety, The Devon has an emergency lowering function. There is also an option to include swing, removable or lift-up armrests so that side transfer is made easy. These can be added to the left side, right side, or both.

Dorset

Up to **25** stone

Standard Features

- Two pockets
- Attractive durable herringbone textured fabric
- Duvet set
- Dual action hand control
- Thermal Shutoff - prevents the motor control box from over heating

Choose from the following mechanisms:

Firm Back

Waterfall Back

Dual Motor £895.00	Triple Motor £995.00
------------------------------	--------------------------------

The Dorset is part of our economy range which offers a stylish look with a contemporary feel.

The Dorset Rise & Recline Chair is made using an attractive herringbone textured fabric. It is part of the Cavendish Health Care economy range and offers fantastic value for money.

Each cushion, on the waterfall back, is fibre filled and can be changed to suit a position that you find most comfortable. The waterfall back also provides excellent lumbar and head support.

There is also a firm back option available.

Choose from a dual motor or triple motor tilt in space with each one giving a smooth rise and recline operated by a handset.

For safety, a 'thermal shutoff' function will prevent the motor control box from overheating.

There is a pocket on each side which is handy to store the handset or any personal items.

Available in a beige or cocoa.

Cavendish Care Chair

The Cavendish Care Chair is a multi-positional adjustable chair which can accommodate most people. It's practical and comfortable, making it suitable for those with complex needs and for home, nursing, and residential environments.

Soft cushioning in the backrest and conventional wings provide excellent postural support allowing the user to obtain a comfortable seating position.

The arm height can be adjusted at increments of 1" or removed completely to make side transfer easier. It is available as a fully manual chair, operated by levers and gas springs or it can be operated with an easy-to-use hand control. The 3 main functions include leg rest, tilt and back angle.

The Cavendish Care Chair is very versatile and can be made to meet the users requirements.

Up to **25** stone

Our Care Chair Range starts from **£1,795.00**

The Care Chair is available with manual or electric controls of the 3 main operations; leg rest, tilt and back angle.

We are one of the South's leading stockists of the **Cosyfeet** range and we believe in offering our customers the best quality products. With **Cosyfeet** you not only get **quality**, you will also experience **comfort, style and support**.

There's wide fitting and then there's Cosyfeet!

Designed to fit and flatter swollen feet, the Cosyfeet range is much roomier than the wide-fitting footwear you'll find on the high street.

Style meets blissful comfort

We believe that swollen feet should have the most comfortable, stylish footwear possible. That's why we combine the latest trends with premium materials and expert shoe-making.

Thanks to innovations such as our 'Hidden Depth' design, our footwear fits swollen feet with ease but still looks stylish and streamlined. It's also designed to minimise the risk of seams rubbing or causing discomfort which is important if you have sensitive or vulnerable feet

FIND OUT MORE

For quality and comfort, our prices start from £30.00.

To view our full Cosyfeet range please visit our website today which is regularly updated with the latest seasonal styles.

CARE BED WITH LOW SIDE RAILS

Please call for further information and costs

CARE BED WITH LOW SIDE RAILS

An option with low side rails is available. The low positioning and side rails provide a safe environment for those at risk of falling out of bed to relax without worry.

EURO DESIGN PROFILING BED

The Euro Design® Profiling Bed is a height adjustable bed which comes in a variety of sizes and is constructed in a high quality, modern finish. If you require a fully adjustable bed with great looks and at the best price, look no further than the Euro Bed.

Choice of Wooden platform slats or Carbon Fibre.

Easy to use handset

- Back rest:** Choose the best back rest angle for you
- Variable height:** Adjust the electrical variable height to get in and out of bed
- Comfort position:** Synchronise the leg and back-rest angles for the best comfort
- Leg rest:** Choose the best leg angle to facilitate blood flow

Bed Size (width)	Adjustable Height
Single: 90cm (35.4")	24-76cm (9.4-30")
Lrg. Single: 110cm (43.3")	26-66cm (10.2-26")
Double: 120cm (47.2")	26-66cm (10.2-26")
Queen: 140cm (55.1")	26-66cm (10.2-26")
King: 160cm (63")	33-66cm (13.2-26")

The adjustable height is perfect for getting out of the bed because the bed rises up to hip level.

Moreover, the mattress platform is reinforced at the buttocks area and requires less effort when getting out of bed. Likewise, the bed can be raised to one's preferred height to get into bed.

Why Choose our Euro Design Profiling Bed?

Comfort & Well Being

- Relieves the stress on the back
- Electrical backrest, electrical leg rest with knee-bend
- Adjustable height, suitable for all users
- User friendly handset

Modern Design

- Head and footboards: Surround in all-wood beech, inside plywood and melamine
- Wooden surround for the chassis and the mattress platform, wood tint matching the end boards

Prices from £1,795.00

How you sleep at night can have a big influence on your physical and mental wellbeing. In this catalogue, we've chosen two of the most popular medical beds that not only have a stylish look but will also help with sleep problems and medical issues.

REHABED

The revolutionary RehaBed's 'healthy comfort' concept has been specifically developed in orthopaedic clinics to preserve spine health. Its remedial and preventative qualities go beyond that of most other orthopaedic bed systems – providing the ultimate comfort for all age groups.

Verona

Greta

150kg
24st

The **Verona and Greta** models are made from White Beech, the Verona boasts a sturdy wide frame whilst the Greta offers a slim lighter framework.

Choose from a plain or padded headboard on the Verona, or from four different options for the Greta.

Organic Mattresses

The RehaBed comes with our 100% organic, natural latex mattress, which is designed to take advantage of the orthopaedic benefits of the RehaBed and to give you the ultimate comfort.

How does it work?

As the spine and body are flexible they need flexible support. The RehaBed has a multi-directional, independently moving, double row slat base which adjusts to the weight and position of the body.

The slatted base adapts perfectly to the user's body shape, giving full support along the spine and lower back.

The RehaBed range offers matching furniture to complete the look of your bedroom

You'll make the right choice with Cavendish Health Care...

As a careful customer, it's understandable that you'll want to do a little research before you make any purchase.

Here are just a few reasons why you should choose us:

- ✓ We are trusted by our customers and a proud member of the British Healthcare Trades Association (BHTA), operating to the Trading Standards Institute (TSI) code of practice.
- ✓ We actively travel the world to find the most innovative mobility solutions on the market such as the Di Blasi and SupaScoota range.
- ✓ The personal touch is important to us. We have two of the largest showrooms in the south with a caring and professional team waiting to help.
- ✓ With over 10 years' experience, we know what products are worth the investment to help you stay active and comfortable.
- ✓ **Can't get to any of our showrooms?** To the best of our knowledge, we are the only mobility company who offer a service that brings a selection of the best lightweight scooters, powerchairs and Riser Recliner chairs to your door.
- ✓ With on-site diagnostics, servicing, and repairs, you can be sure that your equipment is in safe hands.

"I hired the Di Blasi for my weekend away and what a difference it made, especially as it was very hot in the summer and this helped me no end. Cheers to Cavendish."

Dear Helen & Sarah
 Thank you both for your help & assistance over the problems with my scooter. The new wheel / tyre have finally overcome the problems and I'm mobile again.
 Kindest regards
 Joyce
 C. MOORE
 (OLD WHEEL REPAIRS ETC)
 FRANKLIN RD, B2, WYRE

Thank you for your help, kindness and understanding in solving the problem with my mobility scooter yesterday. It was much appreciated.
 Rose Cusworth.

Most products in this catalogue are eligible for VAT exemption, subject to the completion of a VAT exemption declaration form (processed in store) and qualifying medical condition.

Who Qualifies for VAT Exemption?

You can qualify to buy mobility products VAT free if you are chronically sick or disabled. The goods purchased must be for your own personal, non-business use.

For the purposes of VAT relief, Her Majesty's Custom & Revenue (HMRC) defines 'chronically sick or disabled' as someone with:

- a physical or mental impairment which has a long term and substantial adverse effect upon your ability to carry out everyday activities.
- a condition that the medical profession treats as a chronic sickness such as diabetes.
- a long term illness.

A temporary mobility impairment, like a broken leg, does not qualify for VAT exemption.

How to Apply

VAT exemption works through self-declaration. You must complete and sign a form stating that you meet the criteria for 'chronically sick or disabled' as set out by the HMRC.

An independent or NHS medical assessment is not required.

Cavendish Health Care will issue a VAT exemption form at the point of purchase as it is part of the order confirmation process.
